

# Pep Rally for Reading!

Joe Shandrowski: Author/Illustrator/Storyteller

Take Your Students on a...  
**Literary Roller Coaster Ride through  
the World of Imagination!**

**Guaranteed to Inspire Your Students to READ!!!**

It's also a great way to make reading (and learning in general) exciting! Something, I think you'll agree, the students need more than ever.

"I've conducted a dozen or so Zoom style school visits in the past. They're called Zoom "meetings" for a reason. While fine for short author talks and/or lectures, they don't work very well when you add excitement into the equation. You end up with a combination of poor sound/picture quality and constant staggering feeds.

I've taken my popular author visit (89 visits last year alone) and added video technology, 3D animation, and original music to form a one-of-a-kind video streaming experience. The video streams (K-2 & 3-6) are much higher in quality than a Zoom program, very reliable, flexible for teachers, and extremely relatable," **Joe Shandrowski**
